STATE OF ARIZONA PRESS RELEASE

Transportation Logistics Management (TLM) awarded State of Arizona statewide contract to help you save money.

Denver, Colorado, September 15, 2009-Transportation Logistics Management, Inc. (TLM) was awarded the statewide contract, by the State of Arizona, to supply transportation logistic services and management, focused on significantly reducing costs and improving freight processes for the State, its Departments, Agencies and members of the Cooperative Purchasing Partnership.

TLM has developed a comprehensive program, referred to as the ***“5 Easy Steps,”*** designed specifically for governmental procurement departments, universities, educational departments, correctional facilities and other procurement departments whom are consumers of goods and have historically allowed their vendors to “control” the freight process. TLM’s ***“5 Easy Steps”*** is an exciting and comprehensive program designed to substantially reduce inbound freight costs that are buried in the items you purchase. This program is showing savings of up to 50% or more for governmental and educational organizations throughout the United States, all without additional costs, minimum usage or additional work to the procurement department.

TLM will be staging educational workshops throughout the state to demonstrate the simplicity of their program. Over the course of the up and coming weeks, you will receive information and schedules of these informative workshops, designed to help you save money. For further information, please contact TLM (toll free), at 1.866.849.0171 and speak with either Mike Hutchins (President), ext. 224 or Paul Raeder (VP), ext. 232.
